the State Department had advised him that Assistant Secretary of State for Congressional Relations Abshire and other State representatives met with Senator Clifford P. Case today on the subject of Radio Free Europe. They said Senator Case was not hostile and indicated he would not push for hearings in the Senate Foreign Relations Committee on his resolution to provide overt Government funding for RFE and Radio Libe in view of the studies which are currently being made in the Executive Branch to resolve this problem. Senator Case made it clear, however, that he would not accept continued covert financing as a permanent solut and that he did not intend to wait indefinitely for Executive Branch resolution of the issue.	rty tion
